ARCHITECTURE DEPARTMENT OF UIN ALAUDDIN MAKASSAR
proudly presents:

The International Conference on Climate Change and Local Wisdom SOCIAL CONSTRUCTION OF DISASTER MITIGATION DESIGN: THE COMMUNITY, LOCALITY AND ENVIRONMENT RESPONSES

August 28th - 29th 2019 at the Swiss-Bellinn Panakkukang - Makassar

The impact of several disasters in Indonesia and all over of the world recently caused an enormous casualties with a massive losses. Consequently, it is become an urgent matter to be concerned of the whole part of the community regarding the disaster mitigation especially in the prone areas, since it will affected our **Community, the Locality and the Environment** where our existence should stand still. The legacy from our Ancestors as the result of their trial and error in the past in the form of **Genius Loci** in abundant form, that even shaped the values in our nation, hence it should explored to anticipate the threat of the disaster around us.

The Architecture Department of Alauddin Islamic State University, incorporation with Puslitbangkim KEMENPUPERA, IPLBI, APTARI and IAI of South Sulawesi conduct this conference with examines several issues as the subtopics of the discussion:

- **LOCAL WISDOM AND TECHNOLOGY** (How to express the value of local wisdom in the design and its collaboration with the technology into the disaster mitigation),
- **MITIGATION CULTURE AND EDUCATION** (How to create the mainstreaming of the mitigation culture and spread it massively as the education to the community?),
- **COMMUNITIES LIVE** (In what context of social construction and to what extent does it influenced the communities quality of live?),
- **POLICIES** (How does the Government and other formal institution accommodate, both from their policies and responses regarding the disaster mitigation?),
- **ISLAMIC VALUES** (How does Islamic values and practice contribute to the topics of disaster mitigation?).
